ABOUT

THE SCHOOL

RAINBOW INTERNATIONAL SCHOOL

Rainbow International School is one of the best School in Himachal Pradesh where a successful system clearly defines in measurable terms, expectations for what students need to know and be able to succeed in school, in workplace and in life. The school system aligns and focuses its policies and programs on student achievement of high academic standards with fantabulous result in CBSE class X and XII board examination consecutively every year. The school system prepares the students to crack competitive exams and enables them to get admission in prestigious Govt. Medical colleges of India & Himachal Pradesh (AIIMS, IGMC, RPGMC, RGMC, GMCH, MMMC) IIT Roorkee, IT Mandi, NIT Hamirpur & Govt. Institute of Engineering and Technology Shimla, Sunder Nagar & Kangra. Rainbowites got placement in Medical Colleges, Defence, Indian Navy, Merchant Navy, MNCs and so on.

The proactive approach of the school helps to face the toughest situations during Covid -19 pandemic. The sudden shift to remote learning globally, while tremendously difficult, has become quite easier for the teachers by using different Microsoft educational tools while teaching the students. The school management and the staff take initiatives from time to time to tackle challenges, celebrate successes, share learnings and try new solutions in a

lively online mode. In a short span of time the school has been tagged as MICROSOFT SHOWCASE SCHOOL.

Being the first private school of Himachal Pradesh selected for establishing ATAL Tinkering Lab, the school is promoting technology driven innovations. The young innovators are excelling in Science, Electronics & Robotics by participating in various competitions held at international level. The school is also moving ahead to transform education and empower students to be future ready. Coding, Python, IBM, AI and Microsoft courses are embedded in school curriculum.

To bring the children closer to the world, the school offered an opportunity to Rainbowites to learn German as their first foreign language using a communicative approach in fun environment. Rainbowites have shown excellent response by participating in various competitions at international level.

The school is not only touching the heights of success in academics but also excelling equally in sports at national level. The school believes in the motto "Honest Labour Pays" and encourages its students to participate in all kinds of sports, be it at National and State level. It is a matter of great pride that school is accredited with Khelo India Table Tennis Residential Academy and Khelo India Weight Lifting Residential Academy. Another milestone was achieved when HPCA opened its Cricket Training Centre at Rainbow International School. The sports children will be provided the facilities of Sauna, Ice Bath, Jacuzzi, Steam Bath and Physiotherapist at one stop.

Children are the most creative beings on earth if only we could provide channels for their creativity to blossom. IDS (International Dimension in School) projects were an earnest attempt to capture their creativity and imagination. Students enjoyed being the part of different projects and showed excellent responses by participating in various activities at international level.

Great thanks to the principal, Dr. Chhavi Kashyap who always supports the staff and the students for the completion of IDS projects. The school has been consecutively accredited by the International School Award (ISA) under his able guidance.

Of course, it doesn't end here the journey will continue…….

May the Rainbow always move ahead to brighten its VIBGYOR.

EXPERIENCE OF THE IDS COORDINATORS

Coordinator 1-Ms. Seema Sharma

Coordinator 2-Ms. Pooja Verma

"Working as a team and not as individual, we aspire to make a difference."

The journey of IDS started with spark of light. This spark re-kindled in the hearts of teachers, learners and parents when we introduced IDS project with an activity for each class. In spite of all difficulties, we enjoyed putting together our mental spiritual and physical energies. A peep into the world at large through internet made us enthusiastic. This journey was an enriching experience giving us an invaluable learning opportunities. The learning outcome of each activity conducted was unforgettable and immeasurable. Working for IDS has filled every student with positive attitude to discover their own inner strength. Commendable cooperation and wholehearted support from school management staff and students for successful completion of Dossier.

INTERNATIONAL POLICY

RATIONALE:

Rainbow International School, ensures high quality education which motivates and empowers our students to be lifelong learners and the productive members of the society. Through the inclusion of an international focus in school, we are able to offer to our children a range of experiences that will enhance their learning and raise awareness of their national and international identity.

PURPOSES:

- **To prepare the students for highly competitive world at International Level.**
- **To provide an informed awareness of countries, cultures and languages other than our own.**
- **To encourage greater involvement in environmental issues.**
- **To develop curiosity about other cultures.**
- **To promote global learners.**
- **To promote the use of ICT in meaningful contexts for the development of communication skills.**
- **To provide an added opportunity for the promotion of equal opportunities, racial equality and Citizenship.**

GUIDELINES:

By having an international dimension as part of our ethos, we can provide students and staff with a wider variety of experiences both within, and in addition to the National Curriculum. We want all our students to achieve their full potential. Our task is to make it possible and our mission is to provide a platform for the same.

- **Develop links with schools in other countries.**
- **Promote communication through contact with international students abroad.**
- **Raise awareness and appreciation of other environments and what is happening in the world.**
- **Raise awareness of environmental issues through joint projects.**
- **Develop cross-curricular activities with an international theme for all children**
- **The International Coordinator will develop awareness of other cultures within the school community, raise staff awareness of projects, partnerships and exchanges in the international community and develop curriculum links across the school.**

IDS COORDINATOR JOB DESCRIPTION

The aim of our work is to transform each student of the school into a global citizen. A global citizen is aware of his surroundings, participates in the community, tries to stay well informed and above all become a problem solver. The International Dimension Coordinator along with his/her team will promote International awareness throughout the school, the wider school community and the local community.

The Key tasks include:

- **To raise awareness of and plan for an International Dimension in the school by liaising with all staff and the School Management as appropriate during the school year.**
- **To contribute towards a School policy Statement on the International Dimension.**
- **To undertake an annual evaluation of international activities and identify opportunities to further develop the International Dimension as part of the School Plan.**
- **To help the school celebrate its rich and diverse cultural heritage and diversity through assemblies, international days/weeks and other specific activities.**
- **To facilitate good internal and external communication about all International activities through the school website, an international notice board, school newsletters, social media and press releases to local media.**
- **To secure resources within the school to promote the International Dimension. Informing the local media of international activities taking place in the school.**
- **To support global school projects, links and exchanges, including visitors from other countries.**
- **To be responsible for applying for the International Dimension for School.**

An International Dimension will help our students recognize their contribution and responsibilities as citizens of the global community whilst critically examining their own values and attitudes and appreciating the similarities between people everywhere.

Teacher evaluation of international activity

Name:	Neelam Choudhary
Title of activity:	Drawing of Flag
Date:	08.04.2021

Please comment on the impact this activity has had on the students involved:

As the students were involved in this activity So they came to know about the flags of different countries.

Please comment on the impact this activity has had on you and any other staff involved:

We learnt many new things after conducting this activity with our students.

Please make any suggestions for improvement (e.g. What was the most effective part of this activity for you and why? What was the least effective and why?)

It was fine and fun involved activity. All the students did their well and they could be asked for more attractive ways of activity.

Thank you for your time and comments.

TEACHERS' REPORT

Flag-Emerges as Global Recognition

This activity was organized in the month of April. The students from Classes 1st to 6th participated in this activity. There were different sub – activities under it like Drawing, Sway Presentation, Bookmark making activity, List of events where flag shows its own identity. Sway Presentation was judged on the basis of rubrics. Students of Class 6th made very creative and innovative presentations. Students learnt creativity and technological skills. They gained the knowledge about the uniqueness of color, shape and the significance of national flag of India, U.K. and U.S.A. Over all, this activity proved to be very informative and helped the students and teachers to know about different flags. This activity inculcated the respect for other country among the students.

Medicinal use of Sea food and drawing on Aquatic ecosystem

TEACHERS' REPORT

Aquatic Ecosystem on Earth

Aquatic Ecosystem on Earth was organized in the month of May. The students from classes 1, 2, 4, 5 & 7 participated in this activity. There were different activities under this topic. Class 1 & 2 were to draw aquatic ecosystem on drawing sheets. Class 4 was given Model on Aquatic ecosystem on Earth using waste material. Class 5 was given Poster making on medicinal use of sea food in countries like India, China & Japan. Class 7 was given two activities. One is sway presentation on the consumption of sea food in India, China & Japan and the second one is declamation on topic – "The role of Aquatic life in the economy of the country" or "The more the commercialization the more is depletion in aquatic life". Students developed oratory and ICT skills. They learnt the sense of responsibility towards the work. Overall, this activity has brought so much of creativity in students and helped the students and teachers to understand the topic "Aquatic Ecosystem on Earth" well. The students learned the fruitful use of waste and at the same time got practical knowledge about aquatic ecosystem by model making activity.

STUDENT TO STUDENT INTERACTION

Hi Sukrit,

Thanks for writing to us. Some of our hobbies are to play sports like American football, hockey, tennis, golf and paddle. We like to go outside a lot. We can't wait to hear what your recipes are.

-Owen, Wilson and Joey

Hi Sukrit,

We are Chase, Parker, Stuart, and Brady. Thanks for writing to us. Stuart likes to play soccer (football) and has two cats. Brady enjoys to swim and play baseball. He has a dog and a guinea pig. Chase loves to play football, baseball, and play video games. Parker likes to play American football and he also loves to fish.

We can't wait to hear from you again.

Sincerely,

Chase, Parker, Stuart and Brady

TEACHERS' REPORT

Global Aroma and Flavors

This activity was conducted in the month of August and October. The students from classes 6th to 10th participated in this activity. It was the collaborative activity. Under this activity different sub-activities were there. A creative recipe book was made by the students of 6th class. The students of class 7th had done analysis of nutrients. The survey on different food items was done by 7th class students. They had drawn the pie charts on the basis of survey. The students from classes 8th to 10th had participated in online exchange of recipes with the countries U.S.A. Students developed their ICT and research skill. They gained the knowledge about culinary skills. They also learnt to work collaboratively as a team. Due to covid pandemic during this session, the international collaboration was possible with only one country, U.S.A. We tried a lot to connect with other mentioned countries but got no reply. Overall, this activity proved to be very informative and helpful for students and teachers to know about the Global Aroma of different countries.

Re: Re: Your ePals Global Community Pen Pal Exchange invitation has been accepted!

Hi Seema,

It's my first time using this site, but what I did was created an "Experience". Hopefully this is an easy way to communicate. I invited you to join it and we can invite our students and communicate there. Then decide on what we want to do. In the experience, I put a basic outline of my ideas but that can change to accommodate your ideas.

It's great that you want to start next week. Currently, we have identified different parts of Chinese culture - traditions, festivals, music, art, language. My students are writing a short letter about this to share with students from another country. It sounds like we can exchange our work as an initial project.

Would you like to do a short introduction video first? To break the ice and for the students to learn a little bit about who they are communicating with.

Looking forward to working with you.

Re: Cultural Exchange Programme

Hi Seema,

Thank you for your message. This sounds like a good idea. Here is my introduction:

My name is Ryan Hodgson. I'm a Primary school teacher at YCIS International school in Chongqing, China and I teach students from Grade 1 to Grade 5. My students in this project are in Year 6, which is grade 5. I'm originally from Canada and have lived in South Korea and China for the past 12 years. Chonqqing, China is famous for its spicy food, particularly hotpot. It's an enormous city of 9 million people and is located in Western China.

My students made a short introductory video and I attached it to this message. Hopefully you can view it. We will wait for your students introduction. Then we can share a letter the students wrote about their culture.

Kind regards,
Ryan Hodgson

Article In Magazine

PIONEER IN INTERNATIONAL EXPOSURE

Rainbow is an institution where change is the only constant. We are proud to provide quality education to students for developing competence at international level and all-round development in the current globalized world. Rainbowfishes cemented relationship with foreign schools under the guidance of their teachers. School is playing a proactive role in collaboration with other schools at international level. Whole year several activities were conducted under ISA projects (International School Award) which fosters team building innovation and projects management. These activities were started in the month of April. Some students have made models on aquatic eco system. House wise Rangoli competition was also there. In these activities students have shown their creativity. They learnt communication and collaboration skills. Exchange programmed activities were also done. Students participated enthusiastically in all activities. All these activities were conducted under international dimensions in school by British Council IDS. The students are able to explore the world on line.

Title of activity:	Rangoli Competition		

What have you enjoyed most about this activity? What did you like best?

We have enjoyed a lot in this rangoli competition. This competition was conducted in school and it was the house competition. I and Abhay enjoyed the competition the most. The think we like the most was the rangoli which was made by the different house students. They were looking attractive and beautiful

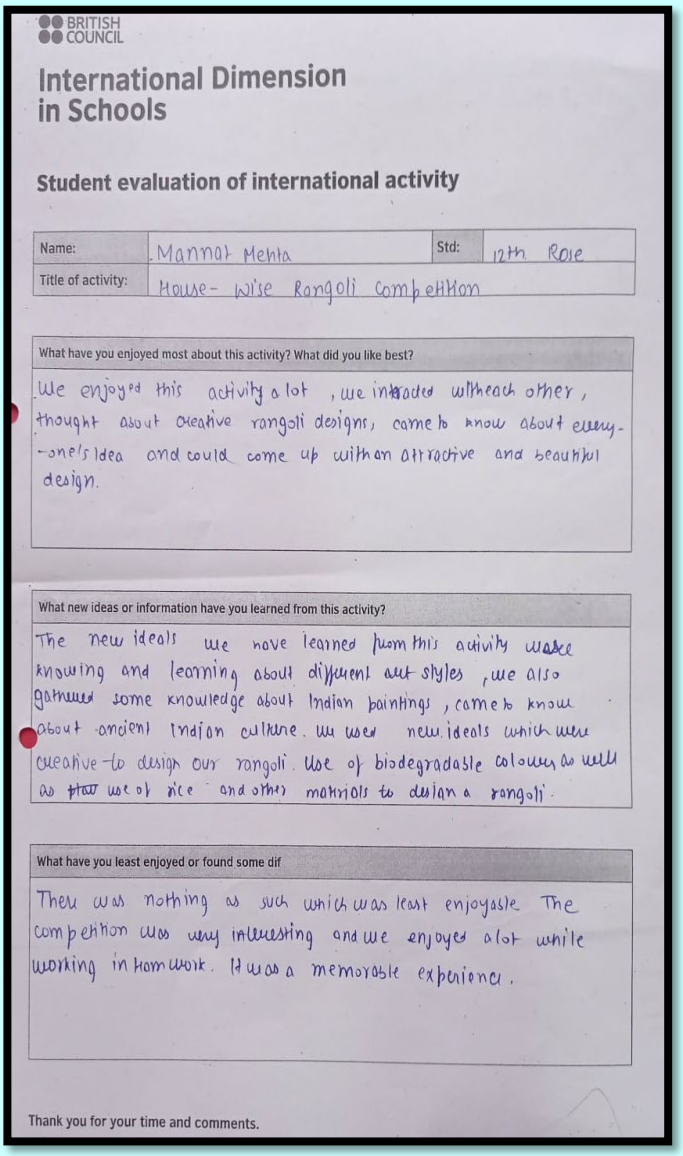
What new ideas or information have you learned from this activity?

The idea we have learned from this activity was the oldest Indian culture as the India is known for its oldest culture and tradition and different type of creativity. The rangoli made by student were of different style and of different religion and creativity.

What have you least enjoyed or found some dif

I have enjoyed this competition very much and it was very intresting competition conducted in our school.

Thank you for your time and comments.



BRITISH COUNCIL

International Dimension in Schools

Student evaluation of international activity

Name:	Mannat Mehta	Std:	12th Rose
Title of activity:	House- wise Rangoli Competition		

What have you enjoyed most about this activity? What did you like best?

We enjoyed this activity a lot, we interacted with each other, thought about creative rangoli designs, came to know about every-one's idea and could come up with an attractive and beautiful design.

What new ideas or information have you learned from this activity?

The new ideals we have learned from this activity were knowing and learning about different art styles, we also gathered some knowledge about Indian paintings, came to know about ancient Indian culture. We used new ideals which were creative to design our rangoli. Use of biodegradable colours as well as ~~how~~ use of rice and other materials to design a rangoli.

What have you least enjoyed or found some dif

There was nothing as such which was least enjoyable. The competition was very interesting and we enjoyed a lot while working in team work. It was a memorable experience.

Thank you for your time and comments.

Festivals - The Global Celebration

This activity was the collaborative activity. It was covered in the month of November and December. Under this some sub-activities were organized. The students from classes nursery, K.G, 4th to 12th participated in this activity. Students from classes nursery and K.G decorated candles and diyas. Other students of different classes made greeting cards for their friends and relatives. Students from class 6th and 7th made posters on eco-safe Diwali. House wise rangoli competition was also conducted. Students from classes 11th and 12th had participated in this activity. The PPTs were also made by the students of 10th class on festivals celebrated in the countries like India, China and Russia. Online exchange on the festivals was also done. The students developed creativity and research skill. They developed ICT skills for international collaboration. Students got aware with the culture of different countries. Due to covid pandemic, the international collaboration was done with one country, China. We tried a lot to connect with other mentioned countries but got no response from them. Overall, this activity was very informative and helped the students in increasing their knowledge about different countries.

Teacher evaluation of international activity

Name:	Arpana Rana
Title of activity:	Survey on human interference in the zoo
Date:	

Please comment on the impact this activity has had on the students involved:

Most interesting part was the involvement of students in the activity. Through this activity came to know about the problem created by human to the animals

Please comment on the impact this activity has had on you and any other staff involved:

To make pie chart on the basis of survey was necessary and it increased my knowledge about preparing a pie chart

Please make any suggestions for improvement (e.g. What was the most effective part of this activity for you and why? What was the least effective and why?)

Such type of activities should be Conducted in our school

Thank you for your time and comments.

TEACHERS' REPORT

ANIMAL WORLD

This Activity was organized in January 2022. The students from Classes 6th to 8th participated in this activity. There were different sub-activities under it like making scrab book on animals of countries from India, Botswana and Australia, Sway Presentation to know about the level of human interest on zoo or wildlife sanctuaries, virtual trip to zoo and video making on same project. Sway Presentation was judged on the basis of rubrics. Students of Class 7 made very creative and innovative presentations. Overall, this activity proved to be very informative and helped the students and teachers to know about different animals in the world. The students developed their ICT and research skills. They also developed the skill of photography. They learnt the sense of belonging towards the nature.

FUTURE PLANS

We envisage that the current level of Global work will be maintained within school curriculum. We should also like to see more opportunities arising for global work in subjects like science, numeracy, literature and inter-school competitions.

As we have included sense of oneness among students by stepping into the world of international Dimensions in order to cope up with local, National and international demands so let our students keep in touch with the schools of different countries. We will go on proceeding such types of activities in the school too. We are very positive and want to make this relationship a classic

example of genuine approach. In order to bring our students closer to cultures, traditions, customs of different countries we will try our best to explore more and more activities in future too.
